## Conversation Starters

### Applying for Scholarships – 12th Grade

You know your student the best, so the following talking points are simply a guideline to use in starting a conversation with your 12th grader about applying for scholarships.

- ▶ The time it takes to apply for scholarships really pays off. For example, if you spend one hour applying for a \$500 scholarship, you made more money in that hour than you could earn at any job.
- ▶ I will help you look for scholarships through employers, clubs, associations, etc.
- ▶ Talk to your school counselors about scholarship lists they have.
- ▶ Let's set a goal that you will complete at least one scholarship application every two weeks.
- ▶ If you save your application information and essays, information on them can be used to apply for additional scholarships.
- ▶ Let's check out the financial aid website of the colleges you're considering and see what academic awards you might qualify for.
