

SP³ - Student Planning Pointers for Parents

Conversation Starters

Check Your Student's Schedule – 11th Grade

You know your student the best, so the following talking points are simply a guideline to use in starting a conversation with your 11th grader to review your student's high school coursework for alignment with admission requirements for education or training programs after high school.

- ▶ We need to review your schedule to determine:
 - Are there classes you still need to take in order to graduate from high school?
 - Are you taking the classes you need to be admitted to college or an apprenticeship?
 - Do you have a balanced schedule to manage your stress level?
 - Can you take some classes that earn college credit?
- ▶ Do you have any teachers who would be willing to write letters of recommendation for you?
- ▶ Are you committed to “finishing strong” instead of letting your grades slide in your senior year?
- ▶ What careers or topics interest you? What classes allow you to further explore these interests?
- ▶ What is your goal after high school and how can I help you get there?
