Conversation Starters

Handling Non-Academic Issues in School – 8th Grade

You know your student the best, so the following talking points are simply a guideline to use in starting a conversation with your 8th grader about important topics that require consideration and discussion between adults and the teenagers they are parenting.

- ▶ Families have different opinions and values surrounding these sensitive topics. Our goal is to honor those while also giving you information you can use to have important conversations with your student. You may find other topics on the CDC website that could be discussed with your student, in addition to those referenced in the article.
